The bad news – there isn't enough vaccine yet for those who want it.

The good news

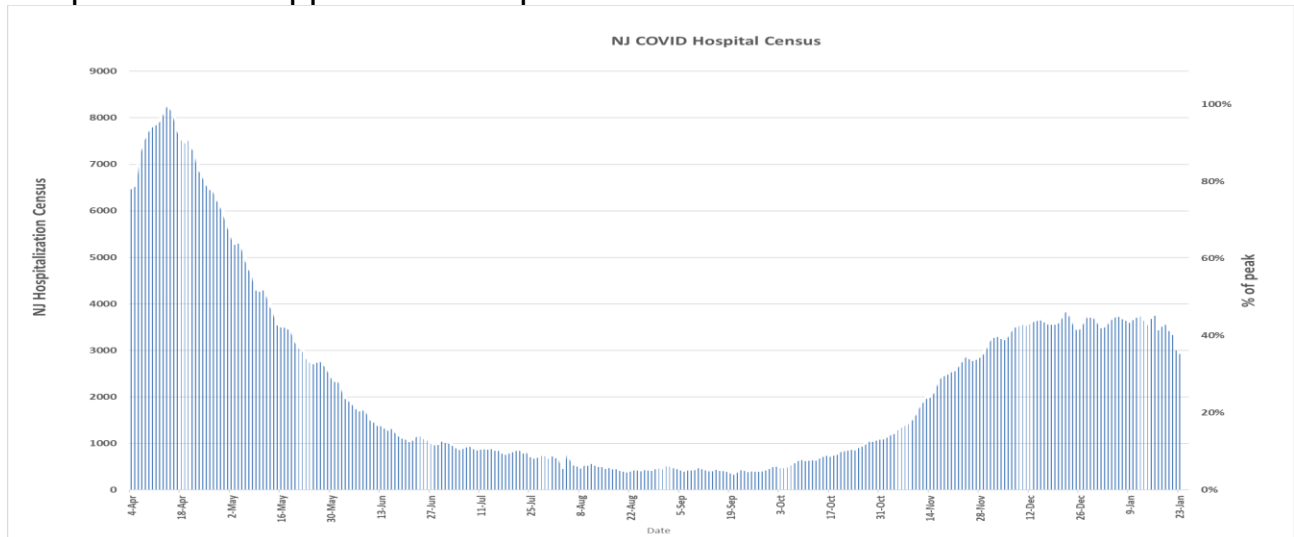

Rt for NJ 0.97

My version of Rt

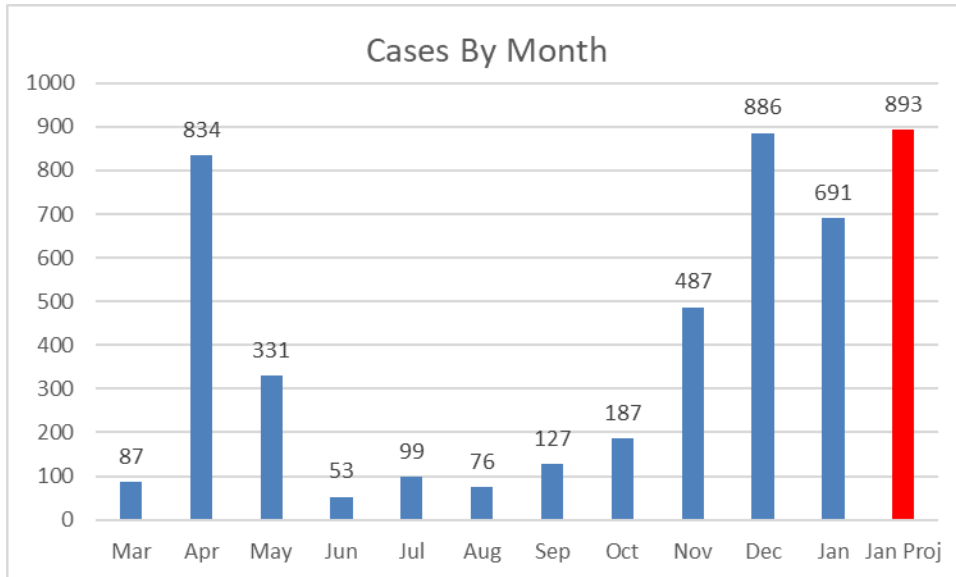

Franklin 0.87

Somerset Co. 0.78

Hospitalizations appear to have peaked.

The end of month projection is on par with last month suggesting peaking.

I know the vaccine situation is frustrating. My sister spent the whole weekend getting my 100yo mother in CT an appt. for her fiirst shot. It's Feb 26. I'll be driving to CT to get her there. I can relate.
