The Somerset County Department of Health has been notified of 1 COVID-19 related deaths in Franklin.

An 88 year old who passed away on 4/12

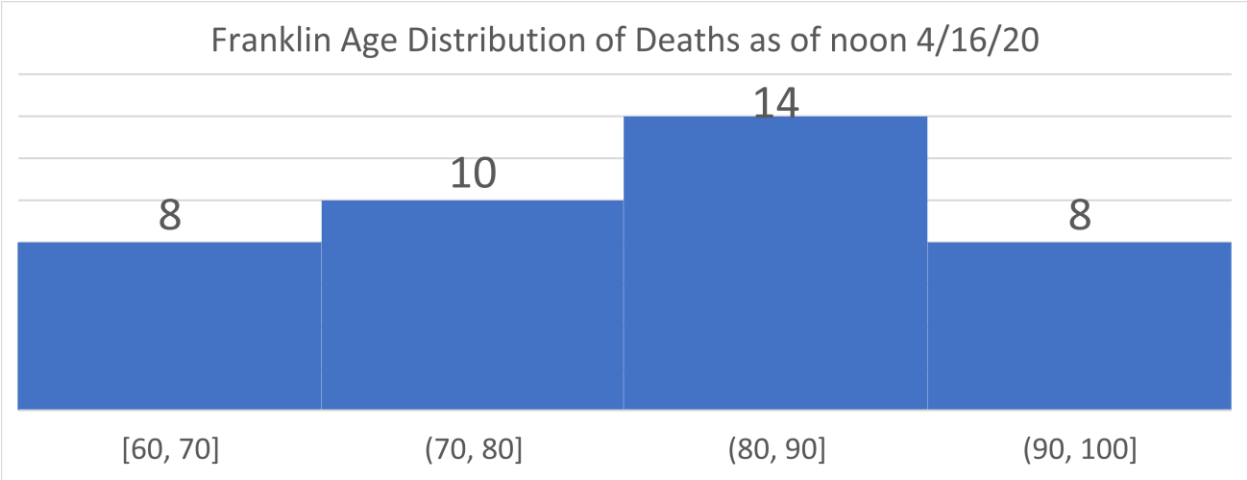

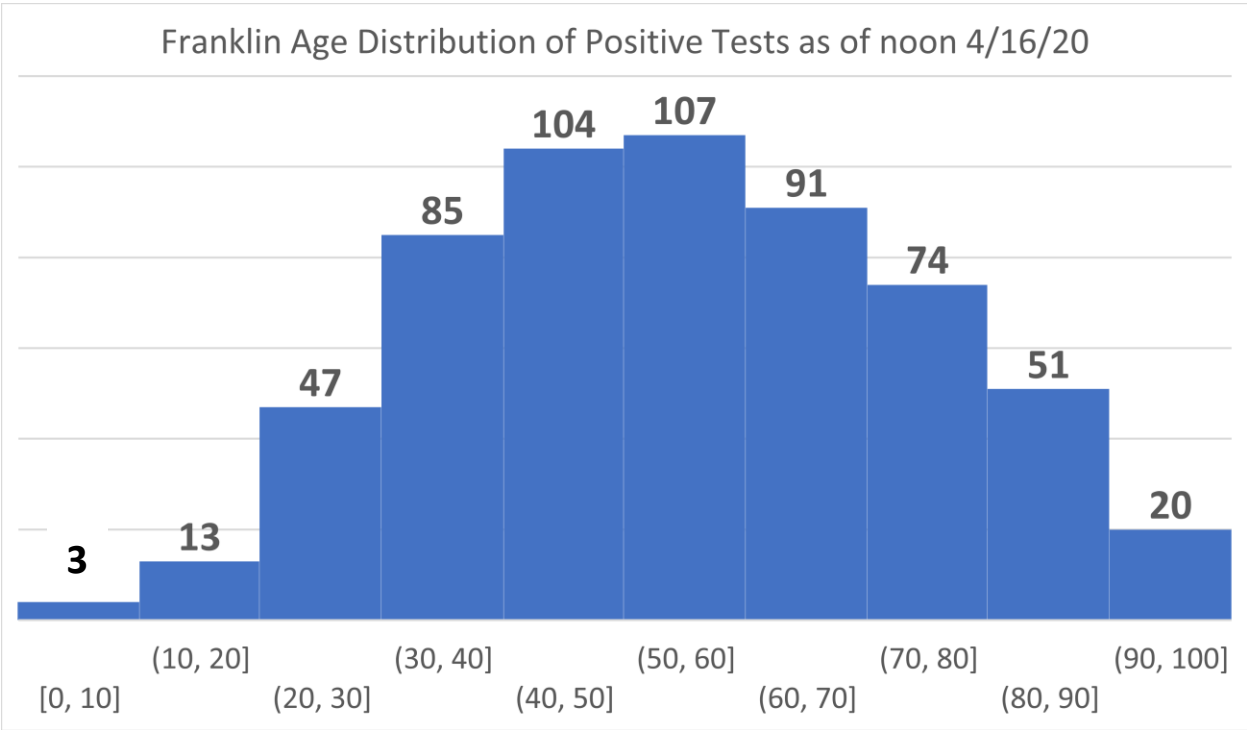

A 90 year old who passed away on 4/13

A 77 year old who passed away on 4/13

A 97 year old who passed away on 4/14

A 92 year old who passed away on 4/15

The State Dashboard (link below) indicates 8,224 (down from 8,270) total hospitalized. It also says 802 (up from 709) discharges last 24 hours.

My typical disclaimers and sources

Several states have published COVID information related to race including NJ. Race is not a required reporting item. The NJ reporting rate is about 19%, Franklin's is lower. There is insufficient data to make a reasonable assessment in Franklin. Frustrating. I'm very concerned about the minority segment of community

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

I do not have information on recoveries. I too have asked that information and I don't get it.

Please see the Somerset Co. status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

We have gotten more specificity on why the Twp's count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin then the county does not include them in the total number. We do.

The State dashboard can be found

at https://www.nj.gov/health/cd/topics/covid2019_dashboard.shtml

The NYC site has more detailed information on patient demographic

<https://www1.nyc.gov/site/doh/covid/covid-19-data.page#download>

I along with you, wish it were available for NJ
