

## New people affected 5/14/2020

Remember each one is a person not a number

New cases in Franklin Township: 9

Total cases in Franklin Township: 1126

Sadly, new fatalities reported in Franklin Township: 2

Total fatalities reported in Franklin Township: 102

40 year old

62 year old

44 year old

66 year old

47 year old

72 year old

49 year old

76 year old

51 year old

Franklin's doubling time is about 120 days!!!!

A 63 year old who passed away on 5/10.

A 68 year old who passed away on 5/12.

### Percent of Cases and Deaths by age

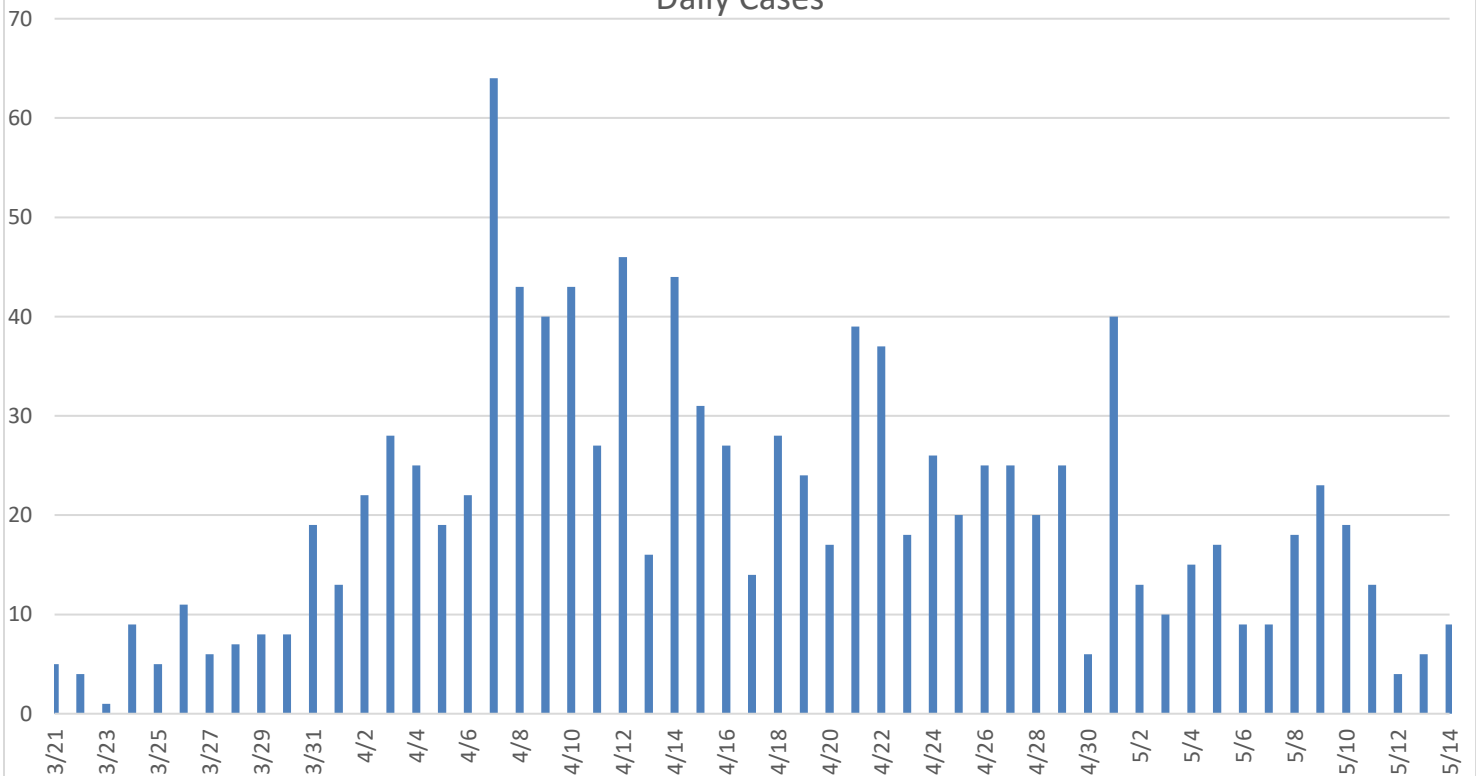

### Percent of cases who have died by age

## Percent Cases, Deaths and Population by Age

## Daily Cases

### Cumulative Cases

The latest reported deaths were on 5/12

### Daily Deaths

#### My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

I do not have information on recoveries in Somerset County. I too have asked that information and I don't get it.

Please see the Somerset Co. status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

We have gotten more specificity on why the Twp.'s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do. If someone who lives

in another town becomes infected and then comes to Franklin, we do not count them. The county does.

The State dashboard can be found
