

New people affected 5/15/2020

Remember each one is a person not a number

New cases in Franklin Township: 2

Total cases in Franklin Township: 1138

Sadly, new fatalities reported in Franklin Township: 1

Total fatalities reported in Franklin Township: 105

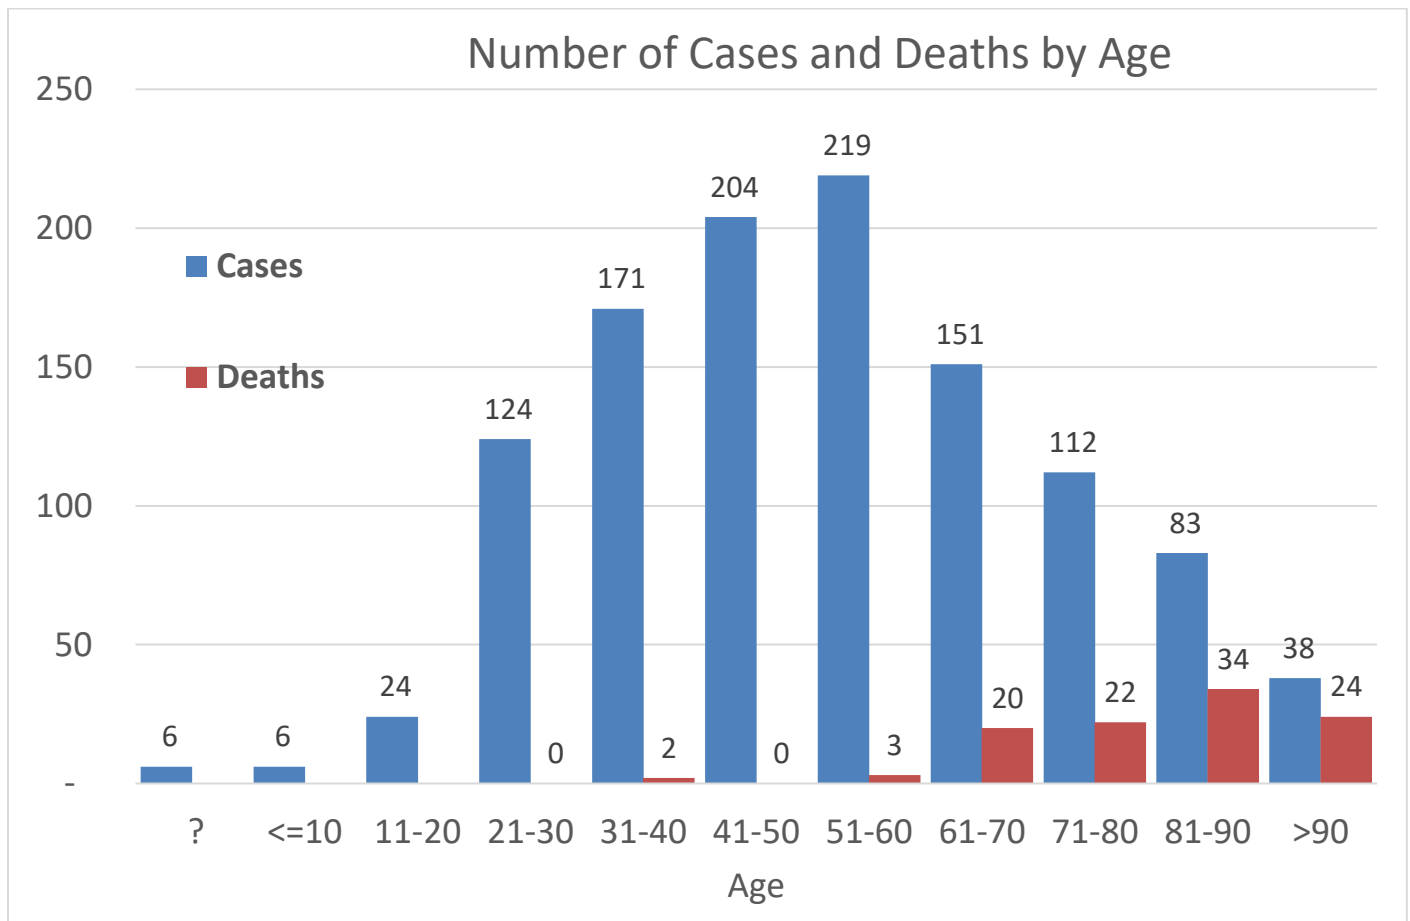

36 year old

40 year old

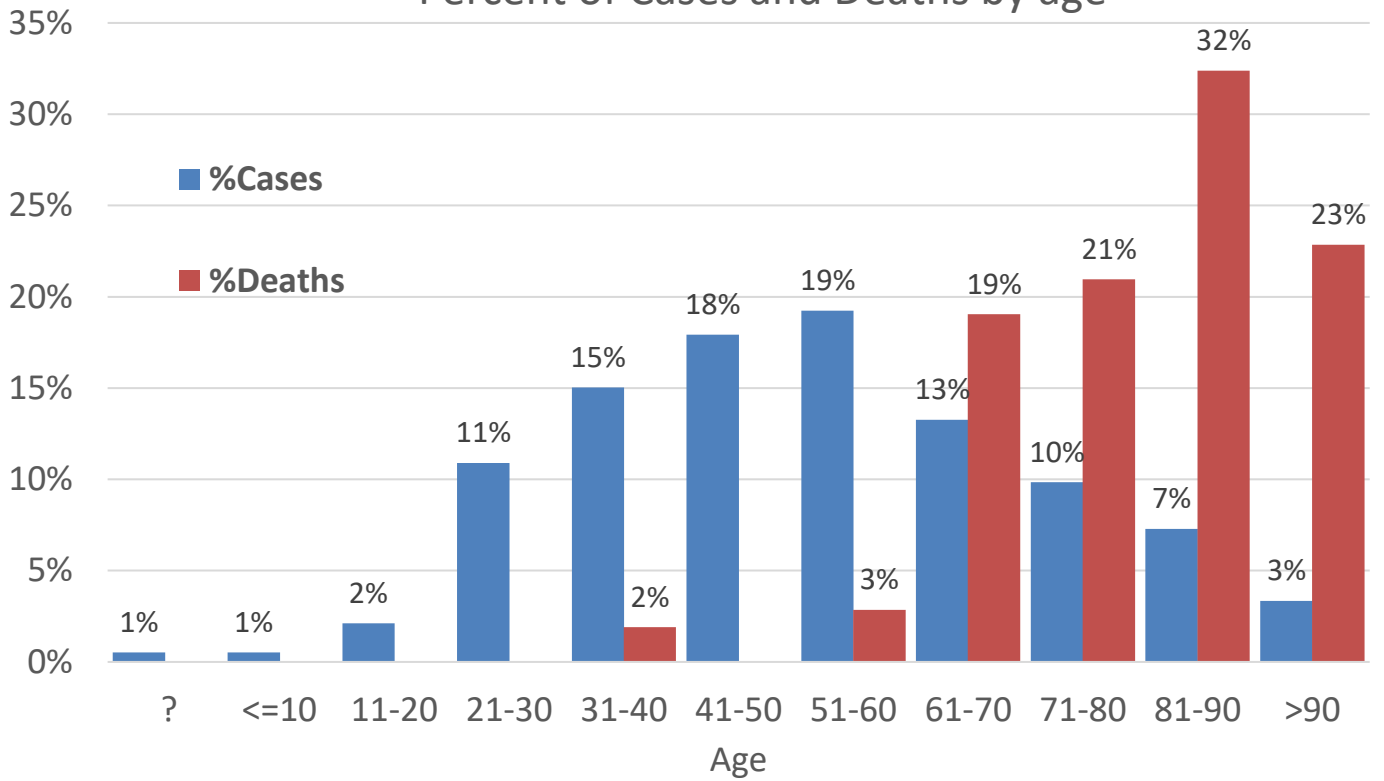

A 79 year old passed away on 5/13

Franklins doubling time jumped to about 196 days!!!!

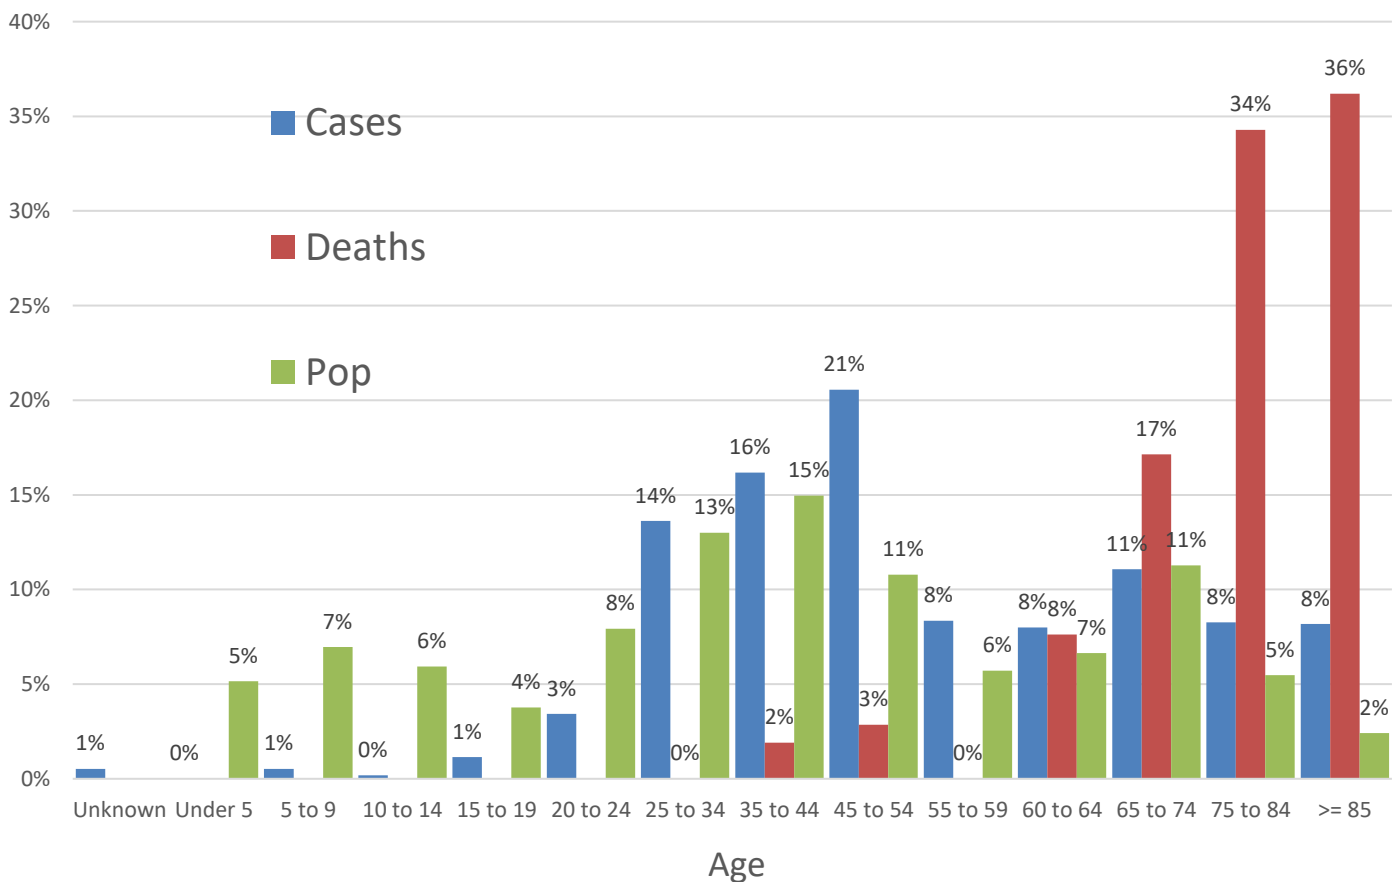

Correction: Due to an Excel error I made the two 102 year old people were not included in the graphs. It is now corrected. Apologies.

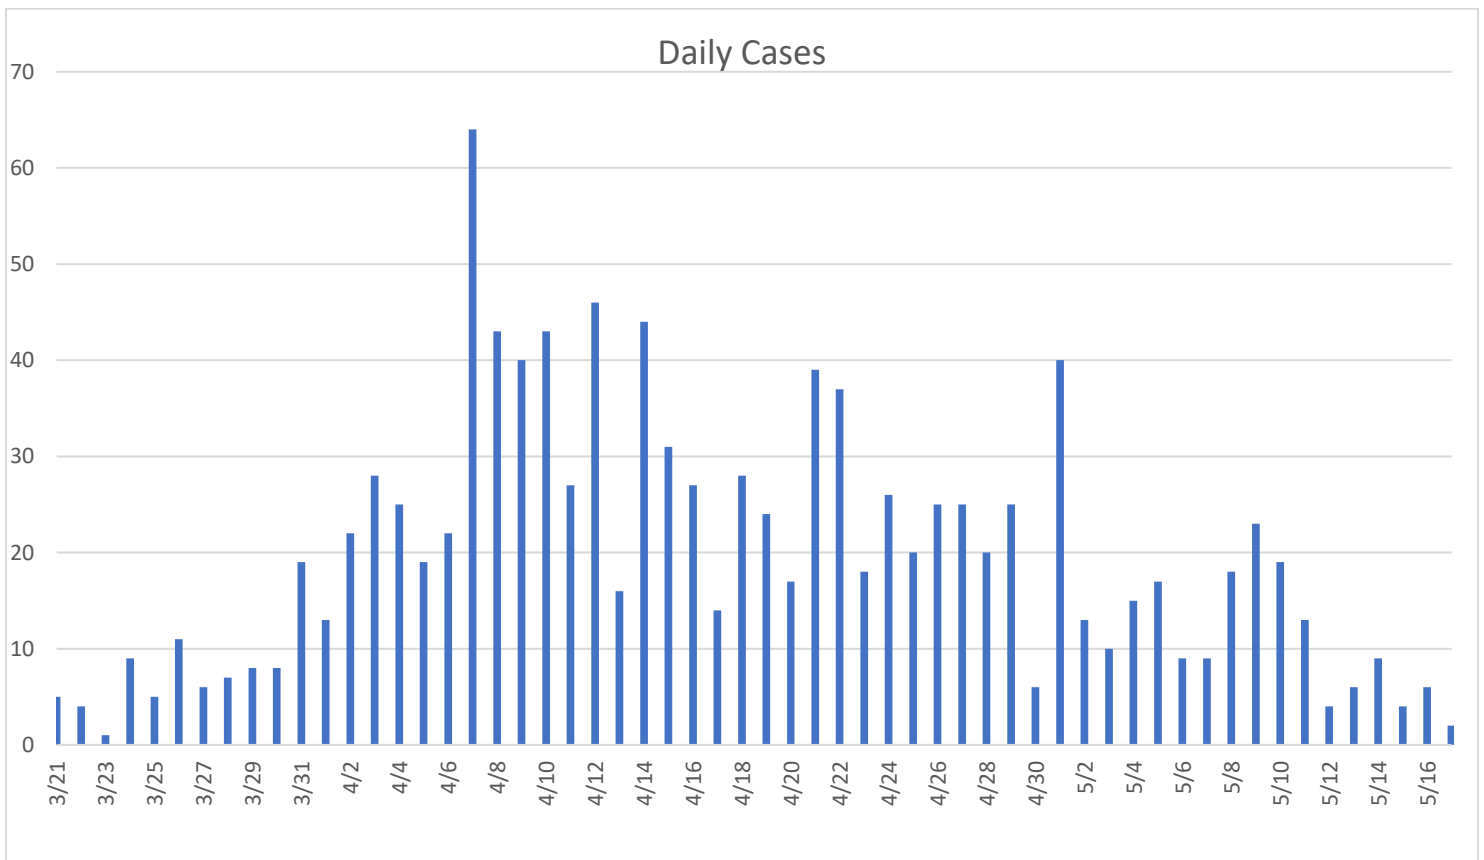

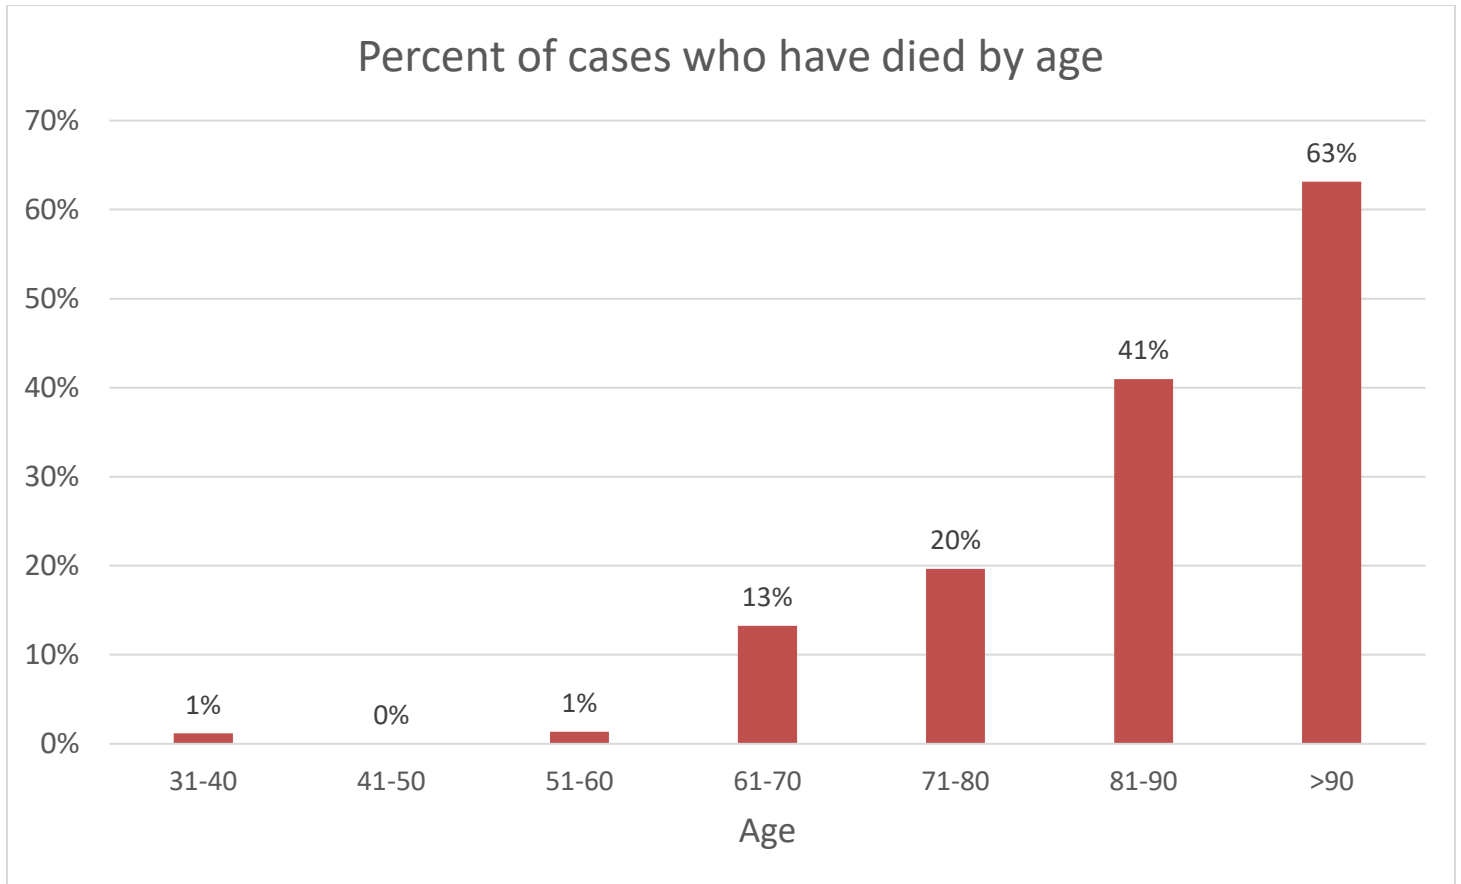

Percent of Cases and Deaths by age

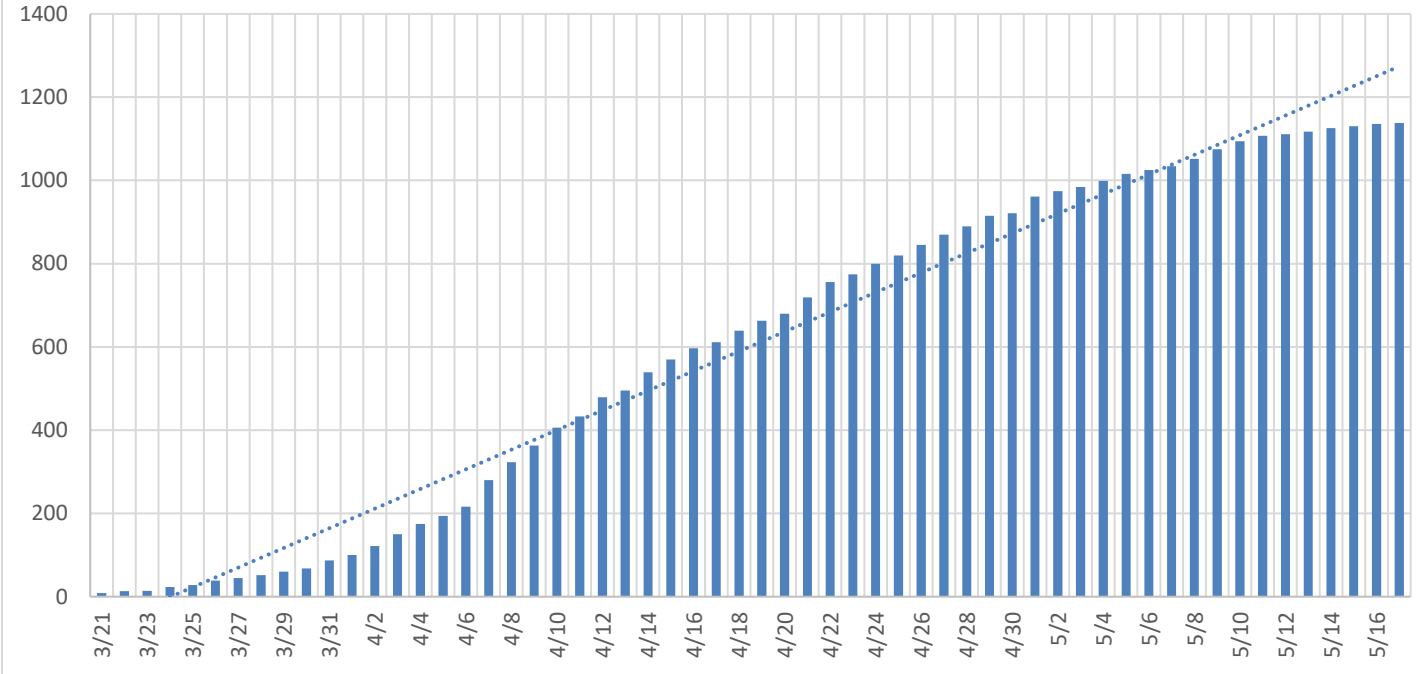

Percent Cases, Deaths and Population by Age

The following chart shows the percentage of people who were infected in each group who sadly died.

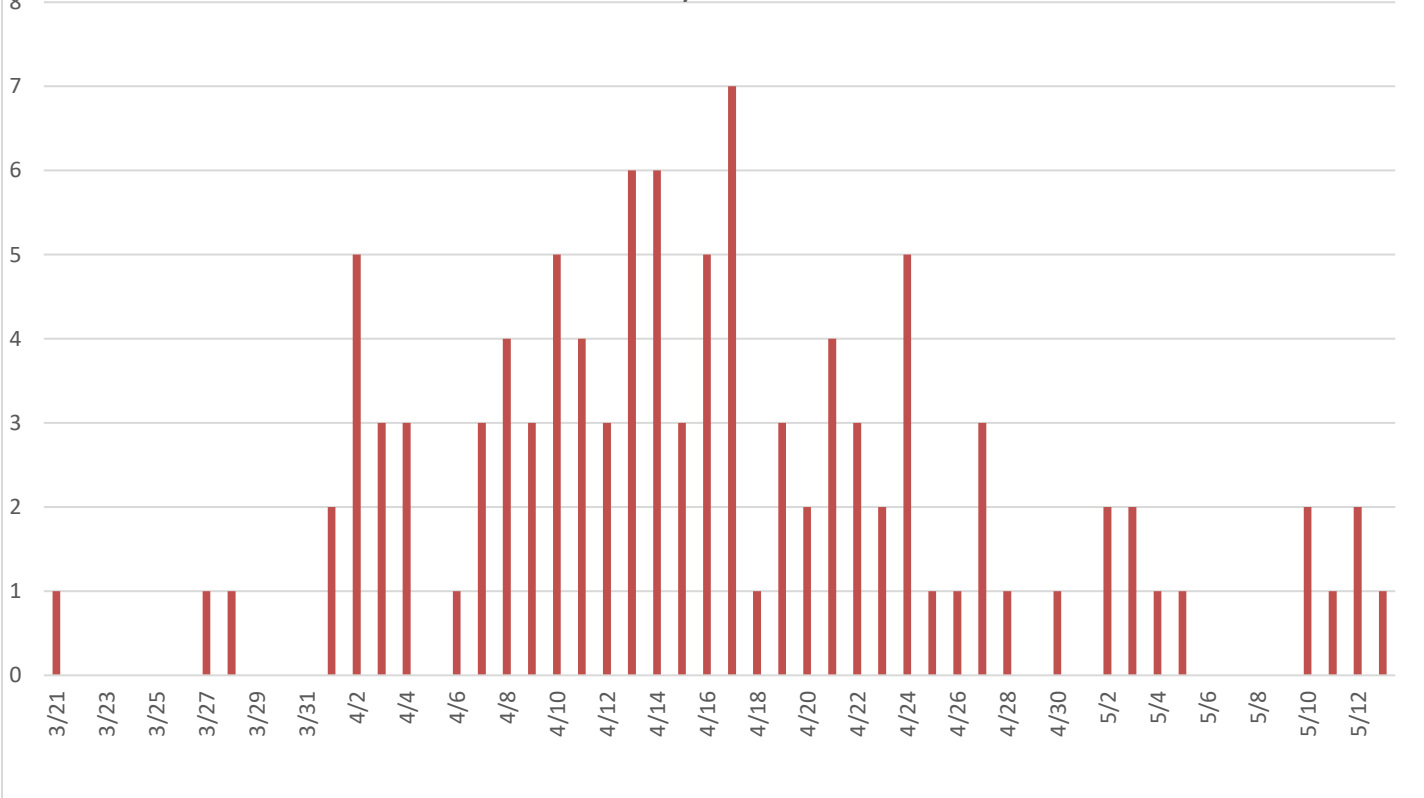

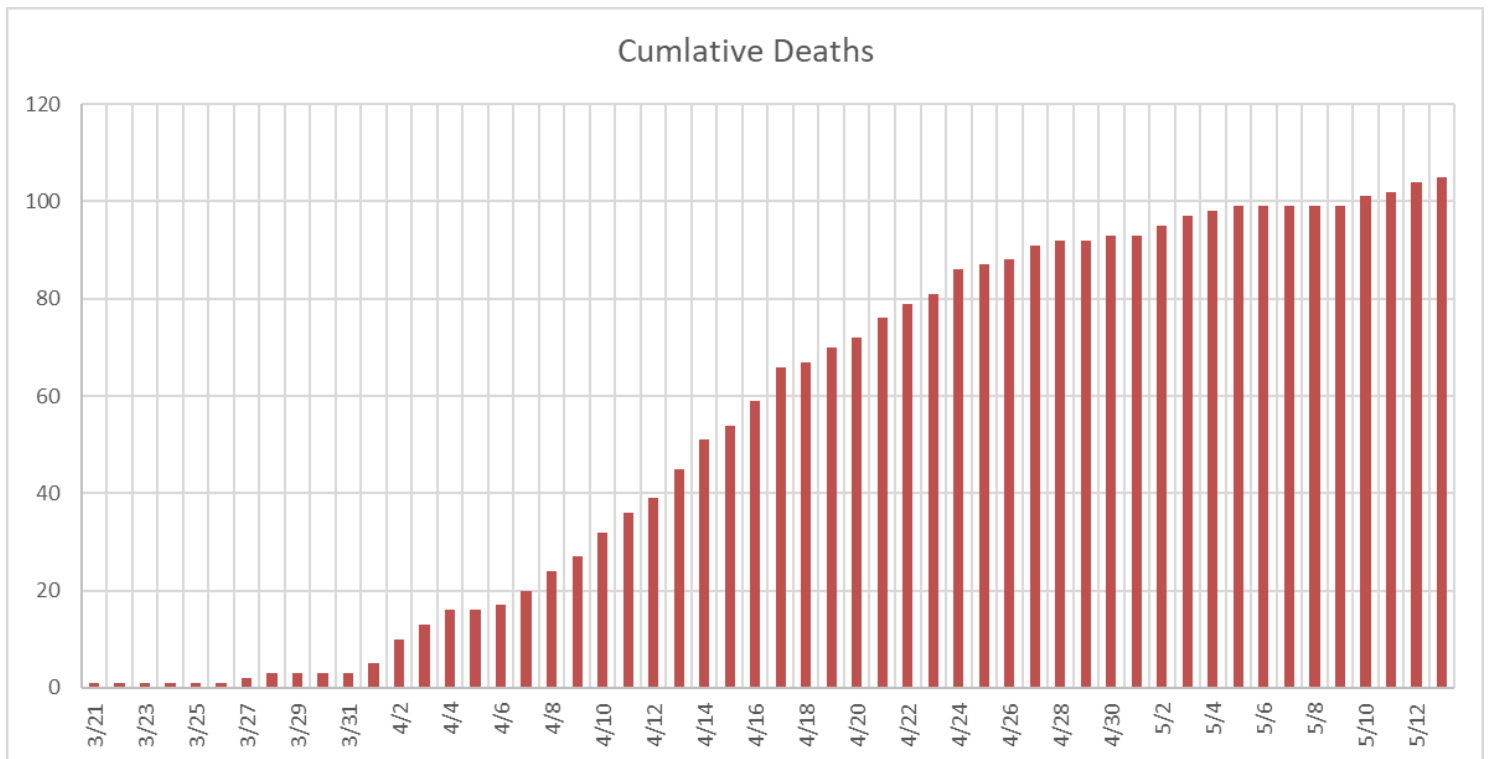

Cumulative Cases

The latest reported deaths were on 5/13

Daily Deaths

My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

Please see the Somerset Co. status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

We have gotten more specificity on why the Twp.'s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do. If someone who lives in another town becomes infected and then comes to Franklin, we do not count them. The county does.

The State dashboard can be found
