

## New people affected 5/23/2020

Remember each one is a person not a number

New cases in Franklin Township: 7

Total cases in Franklin Township: 1165

New fatalities reported in Franklin Township: 1

Total fatalities reported in Franklin Township: 111

26 year old

58 year old

32 year old

76 year old

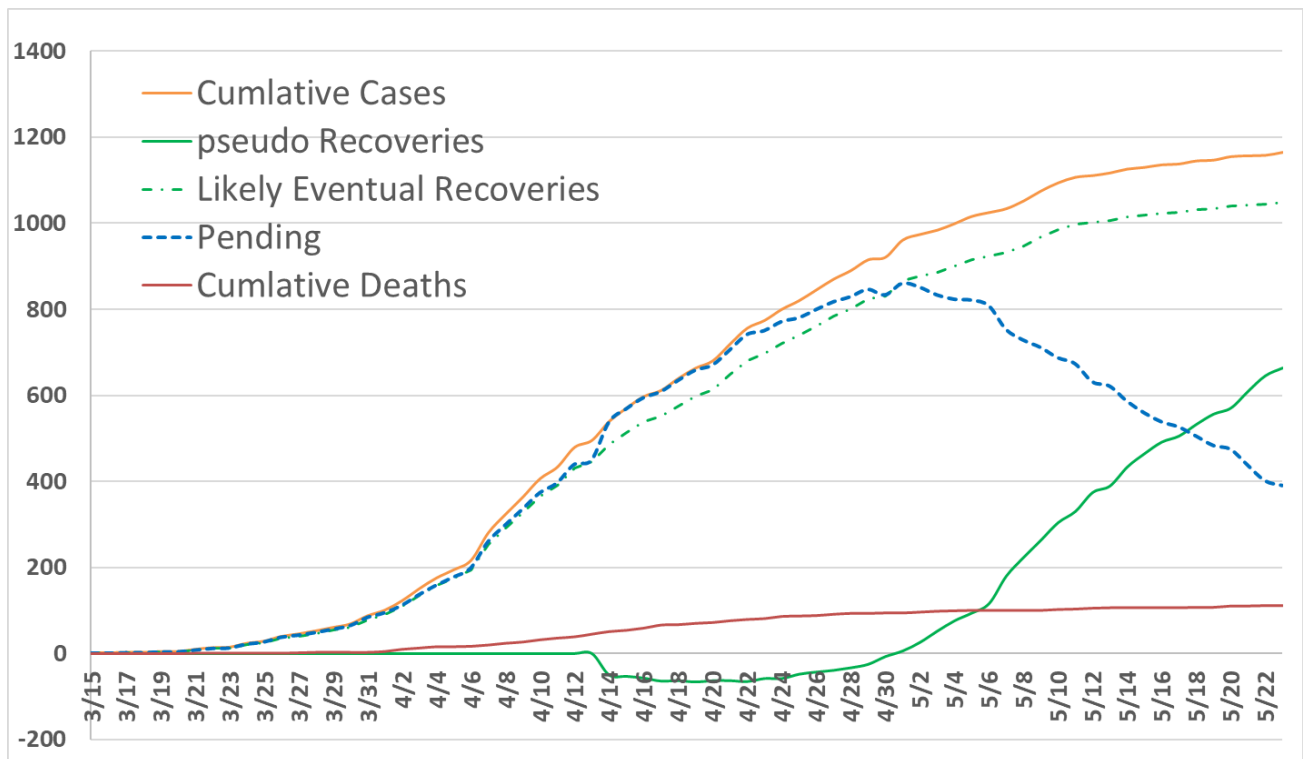

51 year old

77 year old

58 year old

A 54 year old passed away on 5/22.

I've inquired if the slight increase in daily cases is from the new Rite Aid site.

To understand how I calculate pseudo recoveries please see the [May 17<sup>th</sup>](#) post. I added likely eventual recoveries which is simply total cases minus the death rate May 4<sup>th</sup> (May 4<sup>th</sup> was chosen arbitrarily, we hit 999 cases that day)

My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

Please see the Somerset Co. status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

We have gotten more specificity on why the Twp.'s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do. If someone who lives in another town becomes infected and then comes to Franklin, we do not count them. The county does.

The State dashboard can be found
