

## New people affected 5/24/2020

Remember each one is a person not a number

New cases in Franklin Township: 10

Total cases in Franklin Township: 1175

New fatalities reported in Franklin Township: 0

Total fatalities reported in Franklin Township: 111

3 year old

48 year old

19 year old

71 year old

24 year old

77 year old

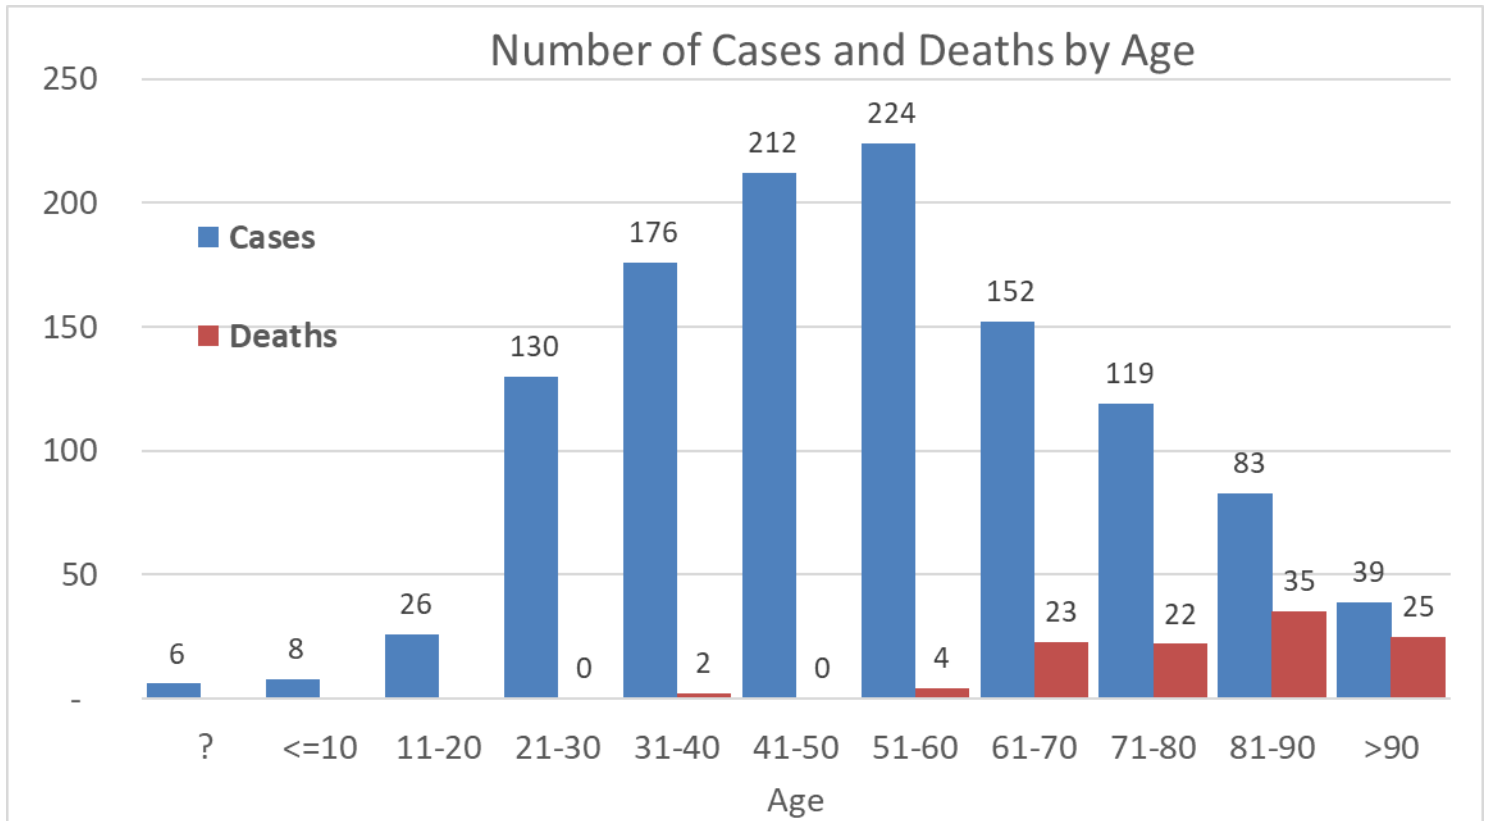

42 year old

78 year old

46 year old

93 year old

Why the increase these past two days? I don't have any data to tell why. Could be decreased social distancing due to parks opening. This is when we'd see it. More likely due to Rite Aid testing. Could be a statistical blip. We'll have to see.

My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

Please see the Somerset Co. status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

We have gotten more specificity on why the Twp.'s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do. If someone who lives in another town becomes infected and then comes to Franklin, we do not count them. The county does.

The State dashboard can be found
