

New people affected 5/27/2020

Remember each one is a person not a number

New cases in Franklin Township: 6

Total cases in Franklin Township: 1186

New fatalities reported in Franklin Township: 3

Total fatalities reported in Franklin Township: 114

61 year old

89 year old

69 year old

94 year old

87 year old

No age listed for one patient

A 68 year old passed away on 4/13.

A 73 year old passed away on 5/6.

An 89 year old passed away on 5/8.

Percent of Cases and Deaths by age

Percent Cases, Deaths and Population by Age

The following chart shows the percentage of people who were infected in each group who sadly died.

My typical disclaimers and sources

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

Please see the Somerset Co. status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

We have gotten more specificity on why the Twp.'s count of the number of total cases for Franklin differs from the county cases on their map. If an infected person who lives in Franklin moves to a care facility out of Franklin, then the county does not include them in the total number. We do. If someone who lives in another town becomes infected and then comes to Franklin, we do not count them. The county does.

The State dashboard can be found
