We have had 813 cases this month. I thought I'd look at other towns in the county for comparison. I had data from Dec 2nd and Dec 29th. So, I looked at how many new cases occurred in each town from Dec 2 to Dec 29 and divided by population.
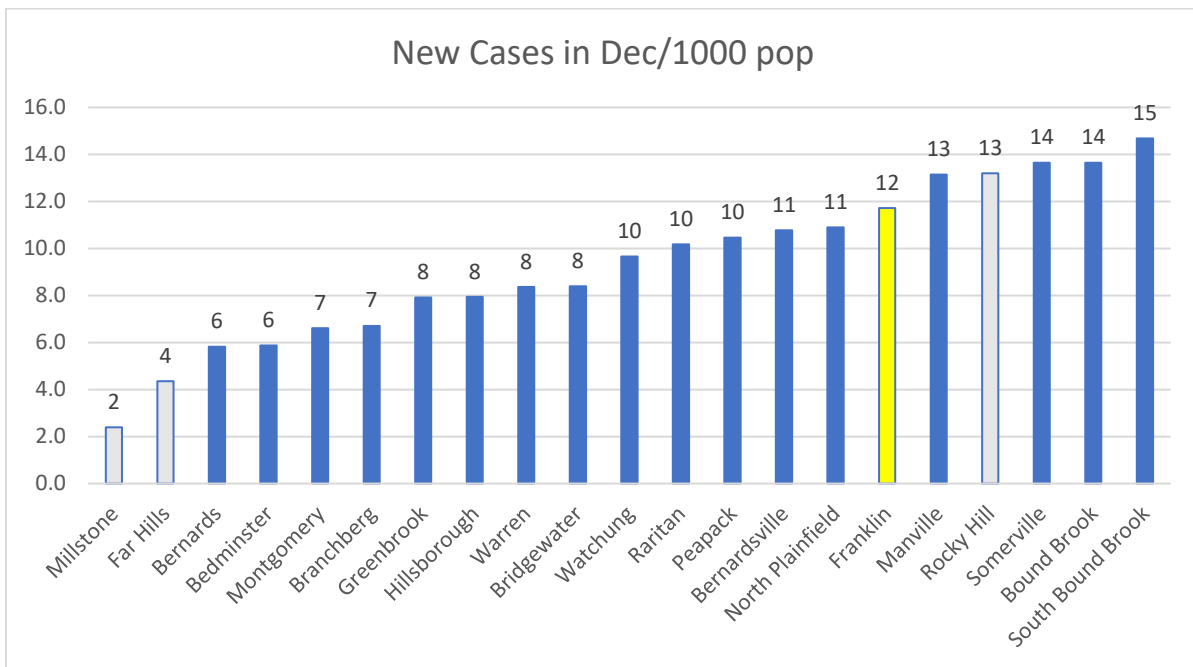

As usual Millstone, Far Hills and Rocky Hill are gray because of small numbers. Actually, Millstone is an estimate because it is now rolled into Hillsborough.

Below is a graph of cases since the start of the pandemic.

Cases/1000
