The Somerset County Department of Health has been notified of 3 COVID-19 related deaths in Franklin.

A 65 year old who passed away on 4/3.
A 78 year old who passed away on 4/10.
An 82 year old who passed away on 4/10.

The State Dashboard (link below) indicates 7,618 total hospitalized. I don't know if that means currently or since the beginning. It also says 683 discharges last 24 hours. I have question about the time frame. I've asked, we'll see if I get an answer.

My typical disclaimers and sources

Several states have published COVID information related to race including NJ. Race is not a required reporting item. The NJ reporting rate is about 19%, Franklin's is lower. There is insufficient data to make a reasonable assessment in Franklin. Frustrating. I'm very concerned about the minority segment of community

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

I do not have information on recoveries. I too have asked that information and I don't get it.

Please see the NJ status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

Due to reporting vs posting time our numbers can vary from the map numbers.

The State dashboard can be found

at https://www.nj.gov/health/cd/topics/covid2019_dashboard.shtml

The NYC site has more detailed information on patient demographic

<https://www1.nyc.gov/site/doh/covid/covid-19-data.page#download>

I along with you, wish it were available for NJ
