The Somerset County Department of Health has been notified of 2 COVID-19 related deaths in Franklin.

A 79 year old who passed away on 4/10.

A 73 year old who passed away on 4/11.

The State Dashboard (link below) indicates 7,604 total hospitalized. Since this is lower than yesterday that means currently. It also says 658 discharges last 24 hours.

My typical disclaimers and sources

Several states have published COVID information related to race including NJ. Race is not a required reporting item. The NJ reporting rate is about 19%, Franklin's is lower. There is insufficient data to make a reasonable assessment in Franklin. Frustrating. I'm very concerned about the minority segment of community

I do not answer questions about location of the positives. I do not have that information. For the reasons why please see my post on March 31

<http://mayorkramer.com/files/mar31.html#4>

I do not have information on recoveries. I too have asked that information and I don't get it.

Please see the NJ status map.

<https://www.co.somerset.nj.us/government/public-health-safety/health-department/services/disease-prevention/covid-19-status-map>

Due to reporting vs posting time our numbers can vary from the map numbers.

The State dashboard can be found at [https://www.nj.gov/health/cd/topics/covid2019\\_dashboard.shtml](https://www.nj.gov/health/cd/topics/covid2019_dashboard.shtml)

The NYC site has more detailed information on patient demographic <https://www1.nyc.gov/site/doh/covid/covid-19-data.page#download>

I along with you, wish it were available for NJ
