

Travel Quarantine 7/18

The 14-day quarantine travel advisory applies to travel from certain states identified as those that have a positive COVID-19 test rate higher than 10 per 100,000 residents *or* have a 10% or higher positivity rate over a seven-day rolling average ("impacted states.")

A full explanation is [here](#).

Here is a table of the calculations for all 50 states plus DC. State abbreviation in red are currently on the state list.

On the edge

I'm expecting it come on the list

Small numbers

As you can see there are several states not on the list that should be by calculation. I comment on them
