

## Travel Quarantine

The 14-day quarantine travel advisory applies to travel from certain states identified as those that have a positive COVID-19 test rate higher than 10 per 100,000 residents *or* have a 10% or higher positivity rate over a seven-day rolling average ("impacted states.")

A full explanation is [here](#).

Here is a table of the calculations for all 50 states plus DC. State abbreviation in red are currently on the state list.
