

## Vote by Mail – Answer to questions.

On July 7 there will be only 5 polling locations open. See below. You may vote there but you can only use the machines if you have a handicap which requires it. Otherwise you will need to use a provisional ballot. If you want to drop off your ballot in a secure location, you can bring it to the county building in Somerville or you can put it in the secure box. The secure box will be located on the municipal complex between the municipal gas pumps and the construction office next to the wooden steps. We put it there because it is monitored by a camera. Mailing your ballot does not require postage.
